

IMPROVEMENT DISTRICT NO. 3

"KELSO CREEK FLOOD PROTECTION CORRIDOR PROGRAM" Kern County Water Agency

Evaluation of Landowner Interest

Improvement District No. 3 is seeking grant funds to help implement a flood damage reduction program pursuant to the Proposition 13 "Flood Protection Corridor Program." The program includes three options: the removal of improvements; acquisition of easements along with "floodproofing" for those who stay; or continue as things currently exist. These were described in more detail during the public meeting held on January 31, 2003. The program is voluntary and may not get funded; however, an indication of your interest on a certain option would be very helpful. This is an expression of interest and not a commitment.

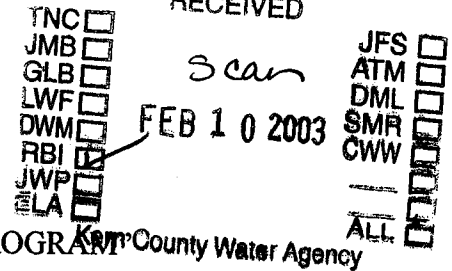

- ☒ I would be interested in considering selling my property in the Kelso Creek floodplain to avoid the flood risk from Kelso Creek, and from Short, Chollo, and Cane Canyons. (I understand that sales would be based upon an appraised value including all improvements, and that I may have the option to remove all of my improvements except well equipment and watering systems.)
- ☐ I would be interested in considering selling a flowage easement, with the understanding that my residence must be floodproofed in accordance with the current Kern County Building Department requirements.
- ☐ I am not interested in any of the options presented.
- ☐ I would be interested in one of the above options; however, I'm not sure at this time which one I would choose.

- ☒ I would be interested in considering selling my property in the Kelso Creek floodplain to avoid the flood risk from Kelso Creek, and from Short, Chollo, and Cane Canyons. (I understand that sales would be based upon an appraised value including all improvements, and that I may have the option to remove all of my improvements except well equipment and watering systems.)
- ☐ I would be interested in considering selling a flowage easement, with the understanding that my residence must be floodproofed in accordance with the current Kern County Building Department requirements.
- ☐ I am not interested in any of the options presented.
- ☒ I would be interested in one of the above options; however, I'm not sure at this time which one I would choose.

IMPROVEMENT DISTRICT NO. 3

"KELSO CREEK FLOOD PROTECTION CORRIDOR PROGRAM"

Evaluation of Landowner Interest

Improvement District No. 3 is seeking grant funds to help implement a flood damage reduction program pursuant to the Proposition 13 "Flood Protection Corridor Program." The program includes three options: the removal of improvements; acquisition of easements along with "floodproofing" for those who stay; or continue as things currently exist. These were described in more detail during the public meeting held on January 31, 2003. The program is voluntary and may not get funded; however, an indication of your interest on a certain option would be very helpful. This is an expression of interest and not a commitment.

- ☒ I would be interested in considering selling my property in the Kelso Creek floodplain to avoid the flood risk from Kelso Creek, and from Short, Chollo, and Cane Canyons. (I understand that sales would be based upon an appraised value including all improvements, and that I may have the option to remove all of my improvements except well equipment and watering systems.)
- ☐ I would be interested in considering selling a flowage easement, with the understanding that my residence must be floodproofed in accordance with the current Kern County Building Department requirements.
- ☐ I am not interested in any of the options presented.
- ☐ I would be interested in one of the above options; however, I'm not sure at this time which one I would choose.

- ☐ I would be interested in considering selling my property in the Kelso Creek floodplain to avoid the flood risk from Kelso Creek, and from Short, Chollo, and Cane Canyons. (I understand that sales would be based upon an appraised value including all improvements, and that I may have the option to remove all of my improvements except well equipment and watering systems.)
- ☐ I would be interested in considering selling a flowage easement, with the understanding that my residence must be floodproofed in accordance with the current Kern County Building Department requirements.
- ☐ I am not interested in any of the options presented.
- ☒ I would be interested in one of the above options; however, I'm not sure at this time which one I would choose.

IMPROVEMENT DISTRICT NO. 3

"KELSO CREEK FLOOD PROTECTION CORRIDOR PROGRAM"

Kern County Water Agency

Evaluation of Landowner Interest

Improvement District No. 3 is seeking grant funds to help implement a flood damage reduction program pursuant to the Proposition 13 "Flood Protection Corridor Program." The program includes three options: the removal of improvements; acquisition of easements along with "floodproofing" for those who stay; or continue as things currently exist. These were described in more detail during the public meeting held on January 31, 2003. The program is voluntary and may not get funded; however, an indication of your interest on a certain option would be very helpful. This is an expression of interest and not a commitment.

- ☒ I would be interested in considering selling my property in the Kelso Creek floodplain to avoid the flood risk from Kelso Creek, and from Short, Chollo, and Cane Canyons. (I understand that sales would be based upon an appraised value including all improvements, and that I may have the option to remove all of my improvements except well equipment and watering systems.)
- ☐ I would be interested in considering selling a flowage easement, with the understanding that my residence must be floodproofed in accordance with the current Kern County Building Department requirements.
- ☐ I am not interested in any of the options presented.
- ☐ I would be interested in one of the above options; however, I'm not sure at this time which one I would choose.

The program includes three options: the removal of improvements; acquisition of easements along with "floodproofing" for those who stay; or continue as things currently exist. These were described in more detail during the public meeting held on January 31, 2003. The program is voluntary and may not get funded; however, an indication of your interest on a certain option would be very helpful. This is an expression of interest and not a commitment.

- ☒ I would be interested in considering selling my property in the Kelso Creek floodplain to avoid the flood risk from Kelso Creek, and from Short, Chollo, and Cane Canyons. (I understand that sales would be based upon an appraised value including all improvements, and that I may have the option to remove all of my improvements except well equipment and watering systems.)
- ☐ I would be interested in considering selling a flowage easement, with the understanding that my residence must be floodproofed in accordance with the current Kern County Building Department requirements.
- ☐ I am not interested in any of the options presented.
- ☐ I would be interested in one of the above options; however, I'm not sure at this time which one I would choose.
